

Flooding in towns and cities

Climate change

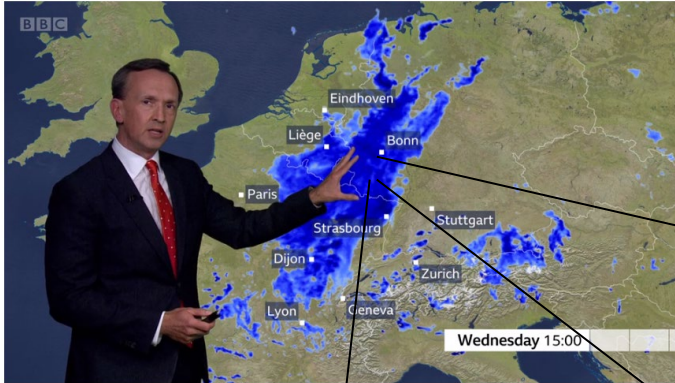

Very heavy rain storms

Floods

too much water at once

Germany July 2021

In towns and cities there are many buildings and roads and car parks, so there is nowhere for the rain to go ...

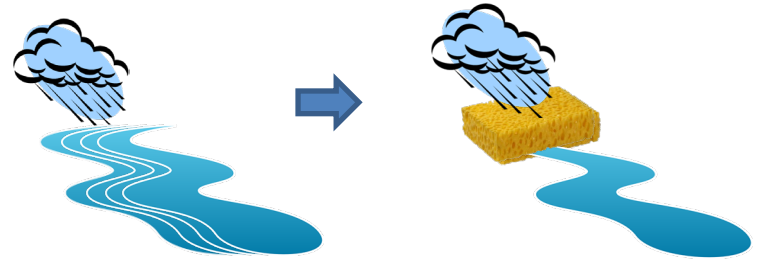

Flooding costs lives and a lot of money to clean up and repair

Roof gardens can help stop flooding in the city

Hold rain water like a **sponge**

Slows down the water

Any flat roof

- Moss and grass
- Herbs and vegetables
- Flowers

Green city

Habitat

Insulation

Clean air
